THURSDAY EVENING, April 14, 1870.

The most noticeable feature of our market, during the present week, is the continued scarcity of corn and hay, receipts of which are entirely insufficient to meet the current demand. There are numerous orders now held here for these articles, besides which there are also buyers from abroad, and for every car of either which arrives, there are a dozen or more buyers ready to take it. As a consequence, there has again been a slight advance in both corn and hay, and prices were exceedingly firm at the close of business hours to-day. Oats have been in good demand and prices well sustained, but have been in rather better supply. Flour is in but moderate demand, generally on orders, with but few sales to the trade, which is pretty well supplied, and stocks remain about the same as at the date of our last report. The weather, during the week, has been exceedingly fine, until to-day, which has been variable, with rain falling the greater part of the time. The rivers are at high-water mark in every direction, and boats have it all their own way, except as to rates of freight, which not being so plenty as tonnage, shippers can generally name their own price, within reasonable bounds.

We failed, last week, to get the report of tobacco sales, and the adjourned report embraces two days' sales, which aggregate 49 hds. This business is rapidly growing in importance, and yet is conducted so quietly, that one not interested, would hear but little about it. The sales, which were not classified, were as follows:

11 hds at..... \$ 4.800. 00 per 100 lbs

11 do at..... 6.100. 00 " "

12 do at..... 8.550. 00 " "

10 do at..... 10.750. 00 " "

2 do at..... 12.200. 00 " "

1 do at..... 21.50 " "

1 do at..... 46.00 " "

583 " various grades, in order lots, at from..... 3.75 to 7.50

Wheat—One ear spring, sold by sample at 50c.

Corn—The light receipts with active demand have kept the market buoyant, and at the close choice white commanded 20 per bushel more. The sales were:

I car rejected, in new gunnies, at \$10

1 " soft white " " at 90

200 sacks yellow " " at 90

1 car No. 2 white " " at 92

310 sacks choice white " " at 95

Oats—have been in fair supply, with good demand and sales of 1 car mixed in bulk, on track, at 40c; 4 cars mixed in new barrels, delivered at 55c.

Hay—continues scarce and with active demand, prices are inclined to a further slight advance. Sales were:

1 car clover hay, on track, at \$19.50

1 " mixed " delivered, at 19.50

2 " timothy " delivered, at 20.00

3 " " on track, at 20.00

2 " " on orders delivered at 21.00

Corn Meal—is in moderate demand and the market is better. Eighty bbls. kil dried sold from store at \$4.50 & 40c.

Provisions—are unchanged and rather dull at quotations, with very little doing.

Bran—is in good demand at \$20.00c. \$22.00 per ton, sacks included.

Butter—With large receipts and but moderate demand, the market is dull and depressed, and prices are weak, with every indication of an early decline. Ten pkgs. choice roll sold at from 35c to 38c according to size and condition of pkgs, and 12 pails and tubs choice white winter at the same range of prices.

Eggs—have been coming in very freely since our last report, and though the demand has been good, sellers have been freely accepting lower prices, rather than hold. About 50 boxes were sold at 17c per shipper's count. After the present week further decline is looked for.

Poultry—is firm and in good demand. Twelve culls chickens sold at from \$1.50 to \$5.25 per dozen.

Apples—in good demand for chafouin only. Twenty bbls sold at \$4.00.

Potatoes—One hundred bushels Peashell Blows sold at 40c, and 15 bbls ditto \$1.80 per bbl; 20 bbls Southern Sweet potatoes sold at \$1.50 to \$1.00 per bbl.

Sorghum—Two bbls sold at 50c per gallon.

Coal Oil—is settling to the trade and on orders at from 30c to 40c per gallon, the latter price by the single bbl.

Freights—are growing more in request, and shipments are light. Rates are unchanged, though for round lots further concessions would doubtless be made on shipments to New Orleans.
